## THE INCLUSIVE DESIGN SHOW

B2B Exhibition and Conference for Neuroinclusive and Accessible Design Solutions

*"I have high hopes of this being a game changer for many businesses."*

Jean Hewitt, Buro Happold

# NeuroPlaces

## Overview:

NeuroPlaces is the UK's first cross-sector marketplace connecting buyers/attendees with suppliers/exhibitors delivering neuroinclusive, accessible and inclusive environments across public spaces, workplaces and visitor destinations.

### For core buyer groups across:

- Workplace & Corporate Real Estate
- Public Sector & Government
- Designers & Specifiers
- Venue & Estate Operators

### For core exhibitor groups across:

- Design & Consultancy
- Sensory & Environmental Solutions
- Products, Materials & Spatial Systems
- Accessibility, Technology & Infrastructure
- Policy, Public Realm & Innovation

---

## Why Now?

**Inclusive design drives commercial value:** Designing accessible and inclusive environments helps organisations attract talent, improve customer experience, and tap into the UK's £274bn Purple Pound.

**Awareness is rising:** Neurodiversity, disability, and inclusive design are now mainstream priorities.

**The need is significant:** Millions of people across the UK have sensory, cognitive, and physical access needs – including 1.2M autistic people and 16.8M disabled people.

**Pressure is increasing:** Neurodiversity-related tribunal claims rose 79% between 2024-2025.

**The market is fragmented:** There is no current, cross-sector, commercial meeting place for neuroinclusive, accessible, and inclusive design.

**Demand is growing:** Buyers are actively seeking practical solutions and clearer standards.

# NeuroPlaces

Hosted in London, the event will include:

- **The full neuroinclusive and accessible design ecosystem**, connecting suppliers with buyers across public-facing environments and workplaces.
- **20+ expert-led conference sessions** across two stages.
- **60+ exhibitors** showcasing their inclusive products and services.
- **1,500+ delegates** seeking inclusive solutions, tools, and guidance.
- **A co-designed, inclusive experience.** The event will reflect on our ongoing collaboration with the Business Design Centre to enhance accessibility within the unique constraints of its historic building.

---

## Why Exhibit or Sponsor?

- Preschedule meetings with qualified buyers.
- Showcase to a targeted cross-sector audience actively seeking inclusive solutions.
- Align your brand with the UK's leading inclusive marketplace.
- Gain market intelligence, policy insight and sector trends shaping future procurement.

## Why Attend?

- Preschedule meetings with vetted suppliers.
- Evaluate products and services in person to make informed specification and procurement decisions.
- Hear from experts at the thought-leadership conference shaping policy & standards.

Our **Advisory Board** is made up of a team of experts in the field of inclusion.

# NeuroPlaces

## A first-of-its-kind B2B platform

NeuroPlaces is a unique event helping public spaces and workplaces evolve through neuroinclusive, accessible, and inclusive design.

It brings together solutions for neurodivergent people, disabled people, and those with diverse sensory, cognitive, and physical needs – creating environments that work better for everyone.

**Founding sponsors and exhibitors are now invited to help shape this landmark launch, delivering both commercial opportunity and social impact.**
