COMMERCIAL MANAGER • PROJECT MANAGER • BUYER • FOUNDER

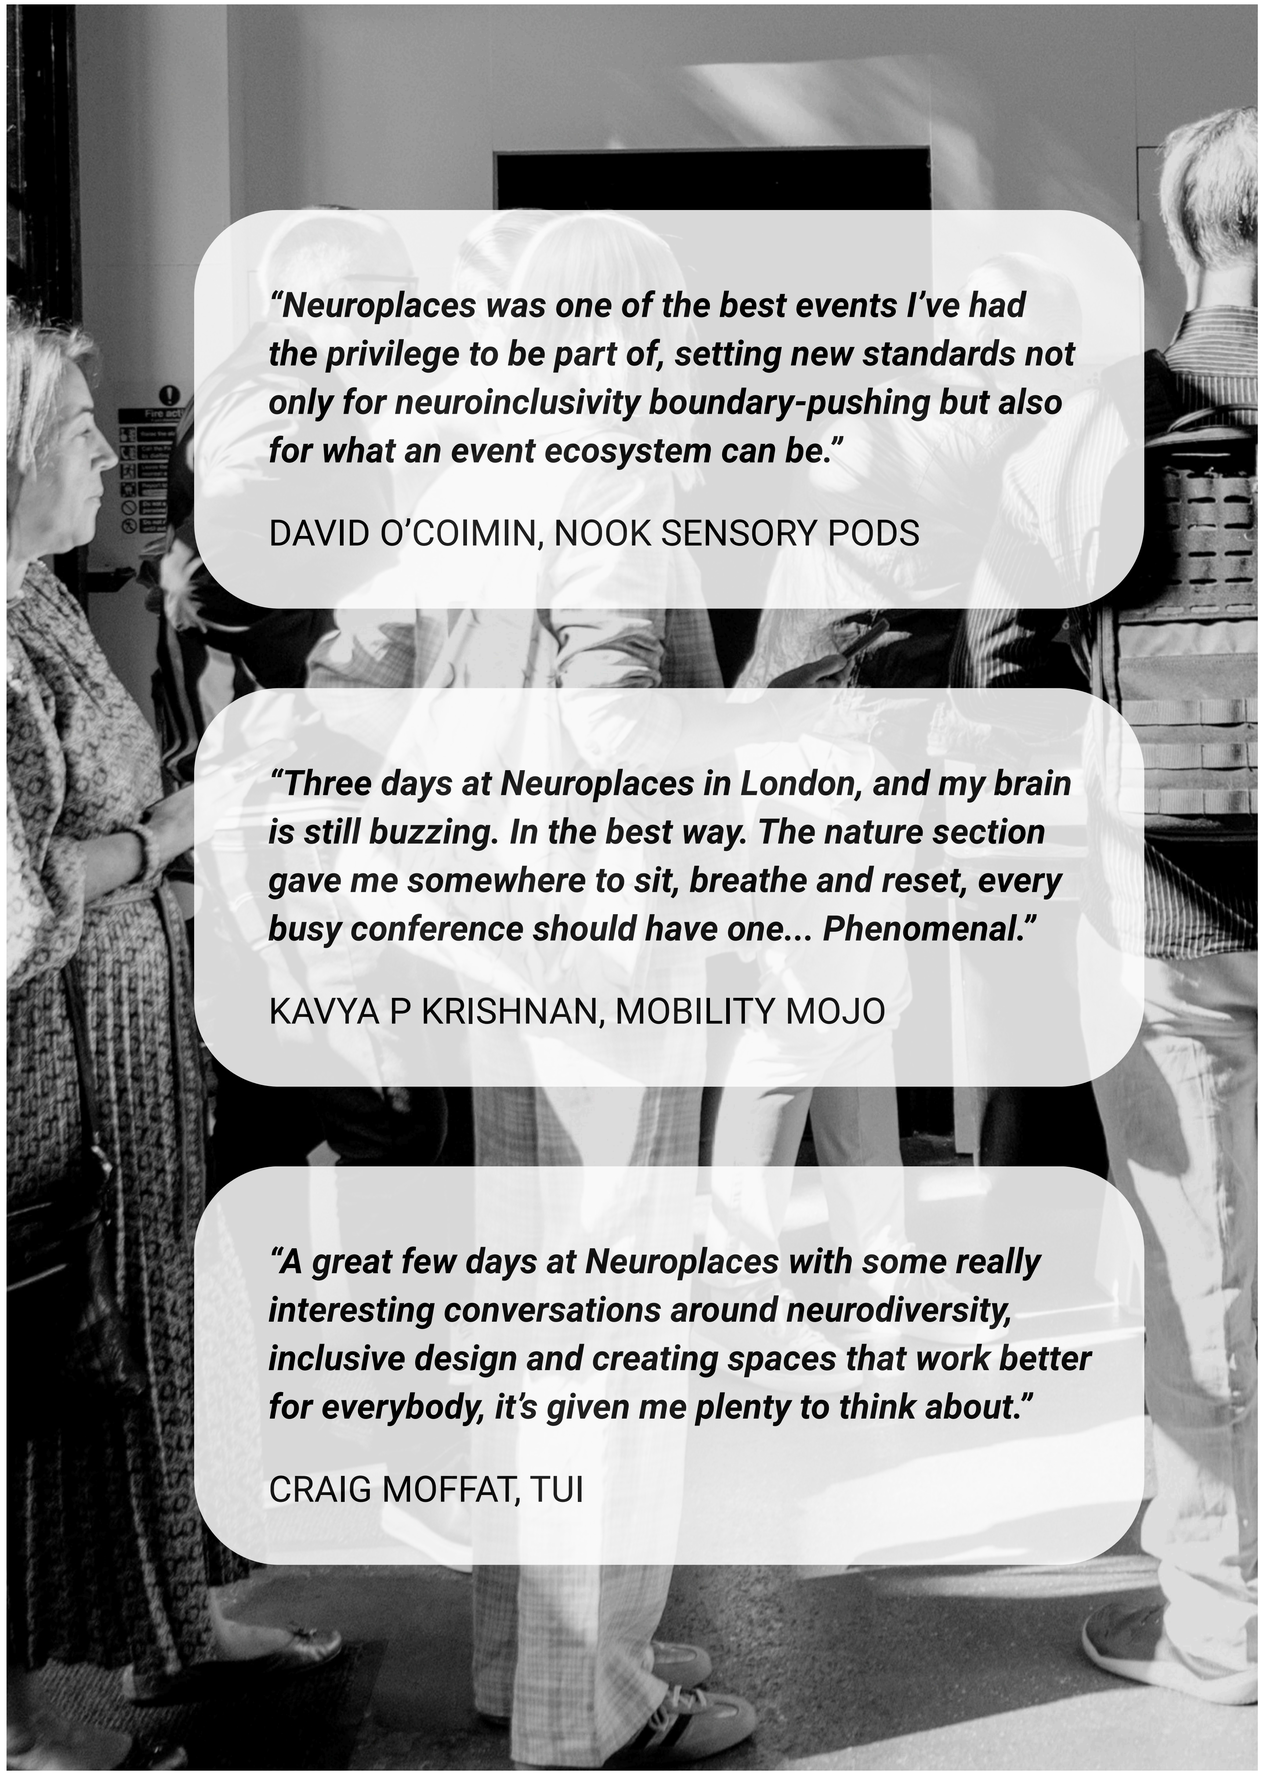

OUR EVENT, YOUR WAY

Inclusive event design in action

We didn’t just talk about inclusive design, we built it into the event. Choice was at the heart of the experience, giving people different ways to engage, participate and reset.

- COMMUNICATION LANYARDS
- INCLUSIVE SIGNAGE
- BIOPHILIC DESIGN
- RESET LOUNGE
- ACCESSIBILITY IN ACTION
- LIVE CAPTIONS
- INCLUSIVE SEATING
- AUDIO HEADSETS
- ONSITE PULSE SURVEY
- NOOK SENSORY PODS

“Neuroplaces was one of the best events I’ve had the privilege to be part of, setting new standards not only for neuroinclusivity boundary-pushing but also for what an event ecosystem can be.”

DAVID O’COIMIN, NOOK SENSORY PODS

“Three days at Neuroplaces in London, and my brain is still buzzing. In the best way. The nature section gave me somewhere to sit, breathe and reset, every busy conference should have one... Phenomenal.”

KAVYA P KRISHNAN, MOBILITY MOJO

“A great few days at Neuroplaces with some really interesting conversations around neurodiversity, inclusive design and creating spaces that work better for everybody, it’s given me plenty to think about.”

CRAIG MOFFAT, TUI

IN GOOD COMPANY

Our 2026 Community

Thank you to the sponsors, exhibitors, partners, ambassadors, advisory board members and organisations who helped make the inaugural Neuroplaces possible.

Together, we're building a growing community championing inclusive and neuroinclusive design.
